

Estrellita

Little Star

The composer of this piece, Manuel M. Ponce, was a Mexican musician who created many folk song arrangements, orchestral works and chamber music. Estrellita was written in 1918 and has become one of his best known and loved compositions.

Performance notes: Slow is good. It's a beautiful song and every note is important. Relish them all! The entire song should be played in a legato manner, but don't forget to change bellows direction when needed and use the little bit of silence as an effect. Bass notes should be held to almost a full value to give a restful feeling.

Slow & Restful ♩=90
